Significant Features of File Upload

Here's what you need to know about the noteworthy features of File Upload component.

File Upload Area

The File Upload Area component simplifies the process of uploading files by offering an intuitive drag-and-drop area. Users can effortlessly drag their files into this area and easily upload them.

Image Upload & File Upload Cards

Uploaded files are elegantly presented as individual cards within the component. These cards display essential file details and also quite useful for the settings or login & register pages.

Customizable File Formats

Offers a wide range of file format icons, each distinguishable by its unique color. Users have the flexibility to tailor the accompanying text for these file format icons to align perfectly with their design vision.

COMPONENTS

File Upload Area

Offers an area where users can conveniently drag and drop their files for uploading.

COMPONENTS

File Upload Cards

Display uploaded files as individual cards within the component, complete with dynamic progress bars and statuses.

COMPONENTS

File Format Icons

Visually distinctive representations of various file types, each presented in different colors and editable text.

COMPONENTS

Image Upload

Easily upload and display profile pictures or company logos.
