

OVERVIEW

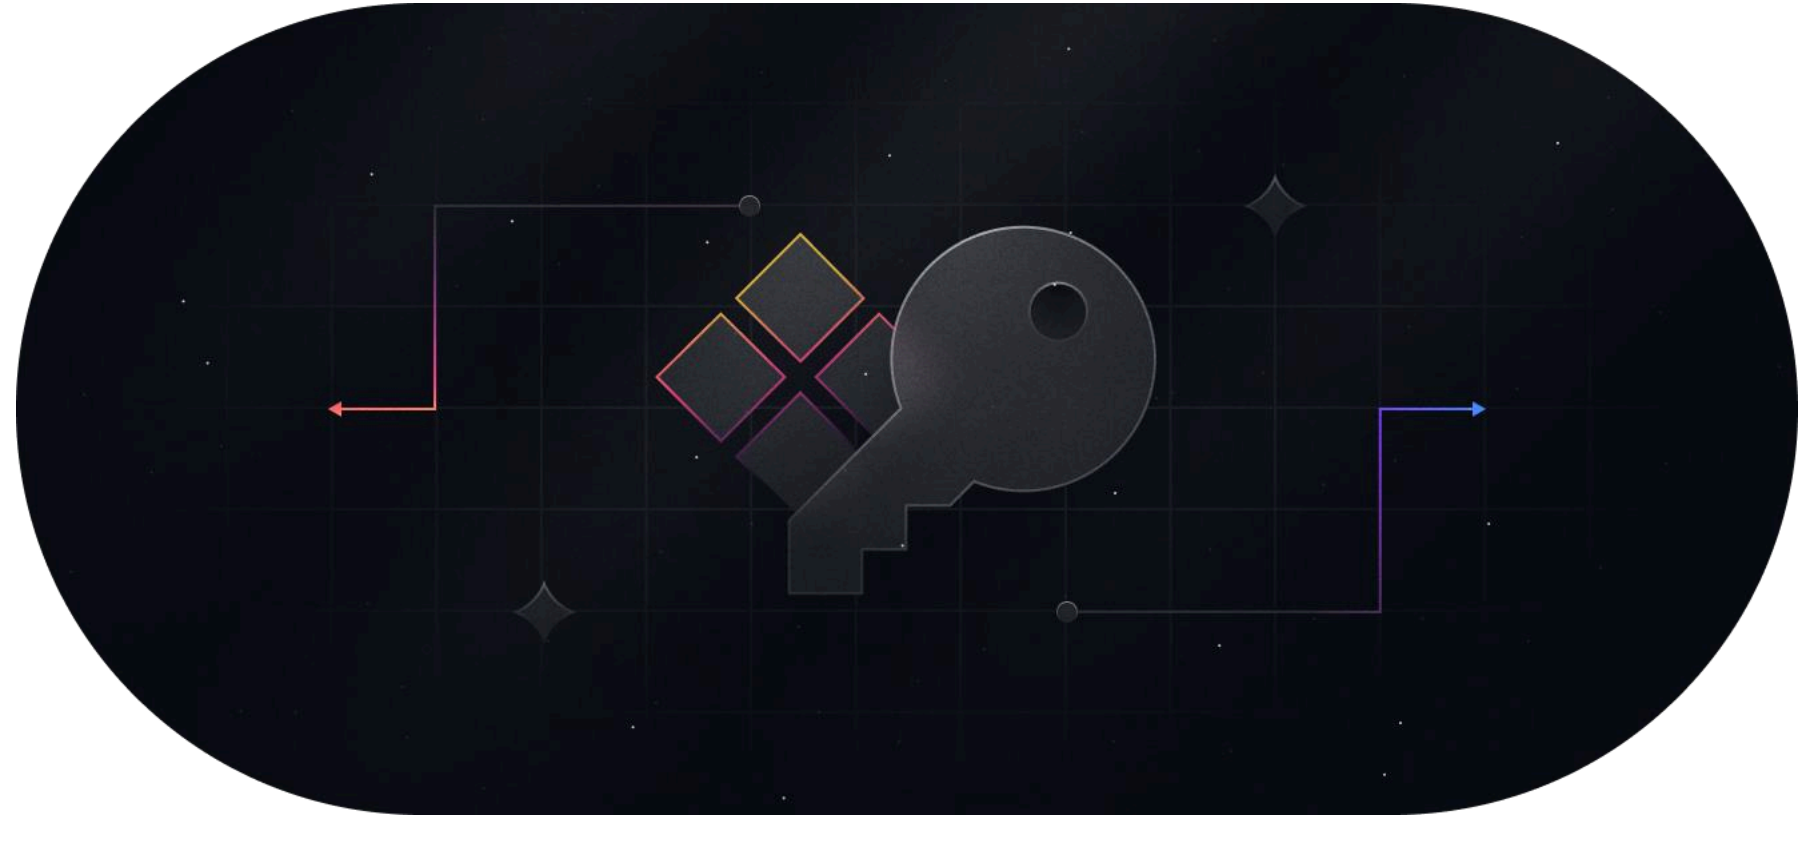

Description

Key Components is a specialized section within our design system, where you'll find essential building blocks that may be small in size but play crucial roles in creating cohesive and functional user interfaces. These components, such as hint text, key icons, and password strength indicators, are integral parts of various larger components, ensuring consistency, usability, and accessibility throughout the design system. While they may be compact, their significance in enhancing user experiences cannot be understated.

FIGMA EXCLUSIVE

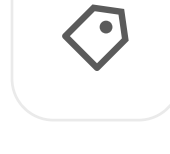

Spotlight

You will find the major traits of the Key components base component in the table.

- Label, Content Label & Card
- Key Icons & Payment Icons
- Hint Text
- Password Strength
- Chart Legends

Significant Features of Key Components

Here's what you need to know about the noteworthy features of Key Components component.

Label, Content Label & Content Card

Streamlined content presentation with preset forms for displaying information like names, descriptions, or avatars, ensuring a consistent and visually appealing display.

Key Icons & Payment Icons

Effortlessly enhance your design with customizable icons, providing a quick and easy way to implement custom styles, various colors, and sizes for a polished look.

Hint Text & Password Strength

Support for various components such as text input and dropdowns, offering subtle guidance to users as they interact with different elements and indicate password strength under the password input.

COMPONENTS

Label

A simple method for displaying important text, enhanced with various accompanying elements.

COMPONENTS

Content Label

An effective way to display text and descriptions with the options of adding an icon, avatar, and more.

COMPONENTS

Content Card

An effective way to display text and descriptions within a card, with the option to add an icon, avatar, and more.

COMPONENTS

Hint Text

The text that supports and is positioned below various components, such as text inputs and dropdowns.

COMPONENTS

Password Strength

The component that displays the level of password security, positioned below the password input.

COMPONENTS

Key Icons

Icons designed for versatile use, offering options for styles, colors, and sizes in various situations.

COMPONENTS

Payment Icons

Icons specifically designed for displaying payment-related information.

COMPONENTS

Chart Legends

Designed to complement charts with distinct colors, providing a visual guide to interpreting data.

COMPONENTS

Chart Legend Dots

Available in various colors to complement the chart legends component.
