

OVERVIEW

Description

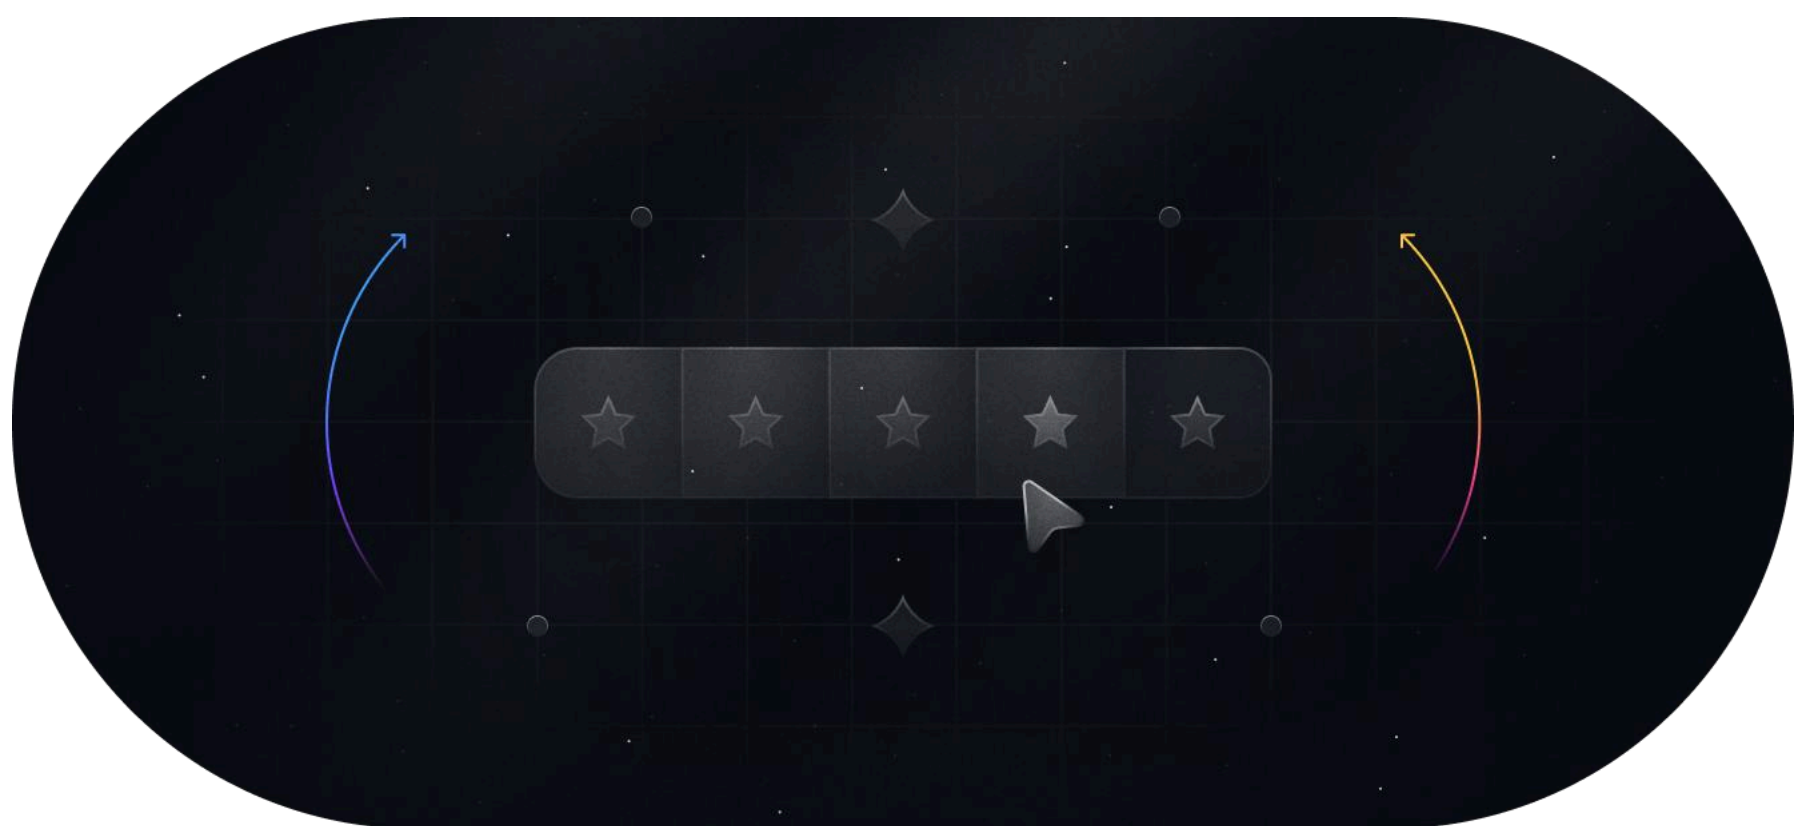

The Rating Component offers a dynamic and visually engaging way for users to express their opinions. With both star and heart rating types, it provides versatility in capturing sentiments. Users can convey their preferences, experiences, or feedback by assigning a numerical value represented through intuitive star symbols or heartfelt icons.

This component adds a touch of interactivity and personalization to your interface, making it a valuable inclusion in diverse applications where user opinions and ratings matter.

Significant Features of Ratings

Here's what you need to know about the noteworthy features of Ratings component.

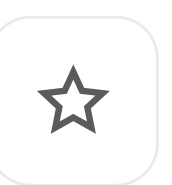

Star & Heart Rating

Offering both Star and Heart ratings as expressive shapes for users to convey opinions. These rating types come with states, managed by the inner components called Rating Cells.

Rating & Review

Providing both Star and Heart ratings alongside a description, link button, and alignment options, simplifying the presentation of Rating & Review in an easily customizable manner.

Rating Bar & Area

Combining a Rating Bar featuring five cells with options like star, heart, number, and emojis, it allows users to provide diverse feedback. Also, this component integrates with a text area for users for written feedback.

COMPONENTS

Rating & Review
